

Report OECD Futures Project on Institutional, Legal and Regulatory Framework for the Space Sector – Contents

| | |
|----------|-----------------------------------------------------------------------|
| 1 | Introduction |
| 1.1 | Purpose of the Report |
| 1.2 | Scope of the Report |
| 1.3 | Aims of the Report |
| 1.4 | Focus of the Report..... |
| 2 | Methodological Issues..... |
| 2.1 | Taking stock: the current stage of the Project..... |
| 2.2 | Definitional issues |
| 2.2.1 | <i>'Institutional', 'law' and 'regulatory'</i> |
| 2.2.2 | <i>'Space sector'</i> |
| 2.2.3 | <i>'Commercial' and 'private'</i> |
| 2.3 | Dealing with legal aspects of space commercialisation |
| 2.3.1 | <i>Three levels of legal analysis</i> |
| 2.3.2 | <i>The national level</i> |
| 2.3.3 | <i>The international level</i> |
| 2.3.4 | <i>The European level</i> |
| 2.4 | Concluding remarks |
| 3 | The 'supply side' issues of financing |
| 3.1 | Introduction |
| 3.2 | Government financing of research and development |
| 3.3 | Private financing of space activities: the UNIDROIT effort..... |
| 4 | Telehealth |
| 4.1 | The character of telehealth activities from a legal perspective |
| 4.2 | Legal obstacles and opportunities – general remarks..... |
| 4.3 | Standardisation of protocols..... |
| 4.4 | Intellectual property rights |
| 4.5 | Liability for medical treatment |
| 4.6 | Standardisation and certification of equipment |
| 4.7 | Liability for damage as a consequence of the use of equipment |
| 4.8 | Co-ordination of frequencies and orbits/orbital slots |
| 4.9 | Broadening the scope to telecommunications again..... |
| 5 | Entertainment |
| 5.1 | The character of entertainment from a legal perspective |
| 5.2 | Legal obstacles and opportunities – general remarks..... |
| 5.3 | Intellectual property rights |
| 5.4 | Competition aspects..... |

| | |
|----------|---------------------------------------------------------------------------------------|
| 5.5 | Taxation |
| 5.6 | Competition on equipment |
| 5.7 | Standardisation, certification and interoperability..... |
| 5.8 | Liability for damage as a consequence of the use of relevant equipment |
| 5.9 | Frequency and orbital/orbital slot allocation..... |
| 5.10 | Convergence of ICT-technology |
| 5.11 | Broadening the scope to telecommunications again..... |
| 6 | Disaster management..... |
| 6.1 | The character of disaster management from a legal perspective |
| 6.2 | Legal obstacles and opportunities – general remarks..... |
| 6.3 | Generation of data including in particular the right to observe..... |
| 6.4 | Distribution of data |
| 6.5 | Quality and accessibility of the data..... |
| 6.6 | Privacy and data protection..... |
| 6.7 | Public goods and public services issues..... |
| 6.8 | Broadening the scope to earth observation again..... |
| 7 | Satellite-based road traffic management..... |
| 7.1 | The character of satellite-based road traffic management from a legal perspective.... |
| 7.2 | Legal obstacles and opportunities – general remarks..... |
| 7.3 | Privacy and data protection..... |
| 7.4 | Liability for economic loss |
| 7.5 | Freedom to provide services..... |
| 7.6 | Public service obligations under a concession-type of arrangement |
| 7.7 | Broadening the scope to LBS or even satellite navigation again..... |
| 8 | Space tourism |
| 8.1 | The character of space tourism from a legal perspective |
| 8.2 | Legal obstacles and opportunities – general remarks..... |
| 8.3 | Jurisdiction and registration |
| 8.4 | Liability for accidents (both passengers and third parties on the ground)..... |
| 8.5 | Licensing (of the operators) |
| 8.6 | Certification |
| 8.7 | Broadening the scope to general tourism again..... |
| 9 | Provisional conclusions..... |
| 9.1 | Legal aspects and areas for further initiatives: primary priorities |
| 9.2 | Legal aspects and areas for further initiatives: secondary priorities |
| A | Acronyms..... |
| B | Selected further reading..... |
